OBJECTIVE

Detail-oriented Data Analyst fresher with strong analytical skills and proficiency in MS Excel, SQL, Power BI and Python. Completed academic projects involving data visualization and statistical analysis. Eager to apply data-driven insights to solve business problems.

SKILLS

Data Analysis :	Basic knowledge of SQL, Python & Excel for data manipulation and analysis.
Data Visualization :	Familiar Power BI & Matplotlib for creating dashboards, charts, and reports.
Database Management :	Knowledge of MySQL, database concepts & basic SQL queries.
Business Intelligence :	Basic knowledge of business intelligence concepts & data-driven decision-making.
Data Analysis and Preparation :	Ability to clean, organize, validate & prepare datasets for analysis.
Communication Skills :	Ability to communicate findings clearly & present information effectively.
Problem Solving :	Analytical thinking & ability to identify trends, patterns & inconsistency in data.

PROJECTS

E-Commerce Sales & Business Analytics using Power BI June 2026 – Aug 2026

Tech: SQL, MySQL, Power BI, Excel

- Analyzed e-commerce sales data to identify sales trends, customer purchasing patterns, product performance, and business insights.
- Used MySQL to clean and organize data and perform SQL queries, joins, aggregations, and filtering.
- Performed RFM (Recency, Frequency, Monetary) analysis to segment customers based on their purchasing behavior.
- Used Excel for data organization, filtering, and preliminary analysis to support accurate reporting.
- Developed an interactive five-page Power BI dashboard to visualize sales performance, customer segmentation, and business trends.

Cart Nexa-Inventory Management System June 2026 – Aug 2026

Tech: Python

- Developed a web-based application to manage products, sales, purchases & suppliers.
- Implemented user and administrator functionalities for inventory operations.
- Used MySQL to store and retrieve inventory-related information.
- Used Excel for data organization, filtering, and preliminary analysis to support accurate reporting.
- Tested the application functionality, verified inventory operations, and fixed errors to improve the system's reliability and usability.

AWARDS & CERTIFICATIONS

- **Deloitte Data Analysis Job Simulation** – Forage (2026): Completed practical case studies involving SQL, data cleaning, Excel, and Power BI.
- **Free Excel Course Certification Online** – Intellipaat Academy (2026): Learned Excel formulas, data cleaning, and spreadsheet reporting.
- **Python Developer Internship Certificate** – Unstop Tech Fair (2025), organized by Keeps Kepler: Developed Python programs and applied scripting skills to data handling and problem-solving.

EDUCATION

Master of Computer Science, 2024-2026
BIET College 8.7 CGPA

Bachelor of Computer Science, 2021-2024
Veerashaiva Degree College 8.7 CGPA
